OUR PROMISE TO YOU

Welcome! Our promise is a simple one. We will enhance your lifestyle by transforming your home into a fun and exciting place to live, work and play.

Our goal is to provide you the dream of a lifetime by designing and installing the most reliable and sophisticated home automation solution, the finest whole-house entertainment system, and a State-of-the-Art networked computer system.

Whether you are building a new home or simply remodeling an existing one, we will design and install a completely customized system to match your personal needs.

From initial design to finished construction, you can count on us to work closely with your builder, architect and interior designer to create your perfect home. Take a moment to visualize all the exciting options available, featuring entertainment, comfort, security and convenience.

Control Your Entire Home With Ease

Our integrated systems are designed so that you can operate almost every electronic device in your home. Through simple-to-use touch screens and hand-held remote controls, our various systems will allow you to control your home, even while away.

Listen To Pleasant Music Everywhere

Music makes for the ambiance of your home. Now you can enjoy beautiful sounds in every room you desire. If you wish to maintain the décor, we will discreetly hide the speakers in the walls or ceiling. We'll design the system so that each family member can simultaneously listen to their favorite music in any room. Take it a step further and expand your music system throughout the yard.

Enjoy Home Theater or Media Center

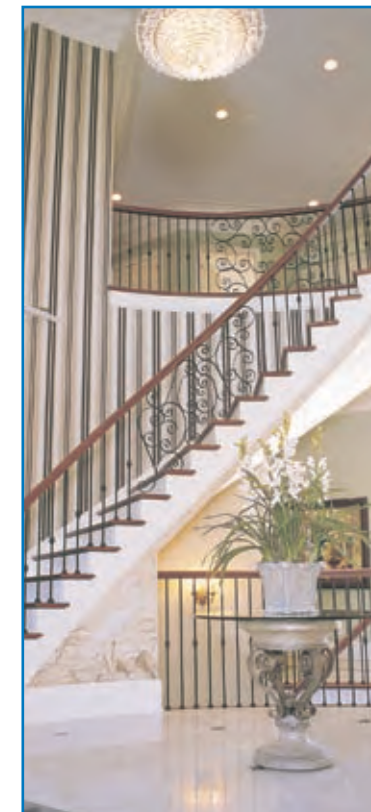

Redefine the meaning of home entertainment with our elegantly designed home theaters, which can be specially designed with enhanced acoustics, seating, lighting and visual projection. Provide the perfect environment for bringing the family together or entertaining guests.

Add a Networked Computer System

Imagine the convenience of a home computer networking system that enables high-speed data networks and communication lines of today's technology. Your home can be networked so that you and your family can efficiently send a fax, talk on the phone and use the Internet simultaneously.

Lighting Design Adds to the Ambiance

Lighting enhances the ambiance in the home. It creates the setting for all activities. Adjust the lighting for a romantic dinner when it's just the two of you, or set the lights to slowly dim when it's time for the kids to go to bed.

Watch Movies in Any Room

Television plays a huge role in today's lifestyle. Experience entertainment from all your video sources everywhere in the house. Each stream can be distributed to any room and simultaneously viewed. Control all your sources by simply using a remote control or touch panel.

Feel Safe And Secure At Home

Protect your family and guests with our discreetly hidden cameras that blend into the décor of your home. Check on the kids upstairs or see who's at the front door by simply viewing your television or computer monitor.
